

UDRUŽENJE ZA TEHNOLOGIJU VODE I SANITARNO INŽENJERSTVO

Udruženje je nevladina i neprofitna stručna asocijacija. Danas predstavlja jedinstvenu asocijaciju u našoj zemlji gde je koncentrisano tehničko, naučno i menadžersko znanje, kao i praktična iskustva o vodi. Postoji 61 godinu kontinualno na području prethodne Jugoslavije. Sedište je u Beogradu. Udruženje za tehnologiju vode i sanitarno inženjerstvo formirano je da objedini naučnu i stručnu javnost u oblasti voda: površinskih, podzemnih, akumulacija, mora, itd., kao i zaštite životne sredine. Svojim članovima obezbeđuje proširenje stručnih i naučnih znanja, razmenu informacija i odgovarajuću valorizaciju znanja i uticaj na javnost, obrazovni, ekonomski, privredni i naučno-tehnološki održiv razvoj zemlje. Udruženje je organizovalo i međusobno povezano veliki broj pojedinaca, preduzeća i ustanova. Problematika rada Udruženja je multidisciplinarna (inženjeri svih profila, biolozi, ekolozi, hemičari, tehnolozi, fizičari, lekari i drugi) pa je zato Udruženje u mogućnosti da pruži pomoć i reši najsloženije probleme angažujući najbolje stručnjake u ovim oblastima jer su oni članovi Udruženja. Udruženje svoju delatnost realizuje izdavanjem naučno-stručnog časopisa "Voda i sanitarna tehnika", koga izdaje u kontinuitetu preko 49 godine, preko stručnih savetovanja i simpozijuma (preko 260 do sada), preko posebnih publikacija (preko 210 naslova), izradom ekspertiza za pojedine tehničke probleme, kao i uticaja na životnu sredinu, učešćem u pripremi aktuelnih propisa, izradom normativa i standarda i mnogih drugih aktivnosti.

ASSOCIATION FOR WATER TECHNOLOGY AND SANITARY ENGINEERING

The Association is a non-governmental and non-profit expert organization. Today, it is a unique association in our country clustering technical, scientific and managerial knowledge, as well as practical experience relevant to the water. The association exists for 61 years in continuity on the territory of the former Yugoslavia with its headquarters situated in Belgrade. The Association for Water Technology and Sanitary Engineering was founded with the aim to unite scientific and expert public in the field of water (surface, subterranean, accumulations, seas, etc.), as well as in the field of environmental protection. The Association offers to its members an ability to broaden their expert and scientific knowledge, to exchange information and to have appropriate knowledge valorisation as well as the opportunity to influence on the public and to affect educational, economic, commercial, scientific and technological sustainable development of the country. The Association gathers and networks a large number of individuals, enterprises and institutions. As the core sphere of activity is multidisciplinary (the Association gathers engineers of all profiles: biologists, ecology experts, chemists, technologists, physicists, medical doctors and others), the Association is well appointed to provide assistance and solve the most complex problems by engaging the best experts in these fields within its membership. The Association realizes its activities by publishing the scientific-expert magazine "Water and sanitary technique" in continuity for over 49 years, by providing expert consultations and organizing symposiums (over 260 until now), by editing special publications (over 210 titles), by issuing expert opinions for specific technical and environmental protection problems. These activities are also realized by participating in drafting numerous legally effective regulations, by prescribing rules and standards and by executing various other activities.

UDRUŽENJE ZA TEHNOLOGIJU VODE I SANITARNO INŽENJERSTVO *ASSOCIATION FOR WATER TECHNOLOGY AND SANITARY ENGINEERING*

UDRUŽENJE VODOVODA I KANALIZACIJE SRBIJE *WATERWORKS AND SEWERAGE ASSOCIATION OF SERBIA*

INSTITUT ZA HEMIJU, TEHNOLOGIJU I METALURGIJU *INSTITUTE OF CHEMISTRY, TECHNOLOGY AND METALLURGY*

u saradnji sa
in cooperation with

PRIVREDNOM KOMOROM SRBIJE *CHAMBER OF COMMERCE AND INDUSTRY OF SERBIA*

ORGANIZUJU KONFERENCIJU **OTPADNE VODE, KOMUNALNI ČVRSTI** **OTPAD I OPASAN OTPAD**

ORGANIZE CONFERENCE **WASTE WATERS, MUNICIPAL SOLID WASTES** **AND HAZARDOUS WASTES**
